2014 ANNUAL REPORT

DEAR FRIENDS,

For many of the families, seniors, and people with disabilities who come to EFAA each year, we are a safety-net when life's unexpected events mean that it's suddenly impossible to make ends meet. For families living paycheck-to-paycheck, all it takes is an unexpected car repair, medical crisis, or sudden job loss.

During the Colorado flood last September, many local residents experienced the financial uncertainty and emotional turmoil that's all too familiar to the low-income families that walk through EFAA's doors each day. EFAA stepped up to offer assistance above and beyond both the financial limits, and need categories, that we usually provide.

To assist our neighbors in time of crisis, we provided financial assistance to 211 flooded households, consisting of 319 adults and 204 children—totaling 523 individuals. While the flood presented our community with enormous challenges, EFAA responded in the way that we have since 1918: our volunteers, donors, and staff worked together to provide compassionate, comprehensive support for people in crisis.

In addition to the support we provided to flood victims, our caseworkers helped 8,678 individuals requiring assistance with food, housing, rent, utility bills, and other basic needs. We are proud that we were able to offer a helping hand to so many people in our community. This year we developed a new strategic plan that expands EFAA's scope beyond basic needs and housing. We will offer deeper services to our clients, moving them closer to self-sufficiency while also serving as a change agent for preventing homelessness in our community.

We are fortunate to have the support of engaged board members, volunteers, and donors as we look ahead to creating even better outcomes for our clients and our community.

Thank you for your continued support.

Warmly,

Jon Gordon, Board President

THE COMMUNITY NEED

Those who cook our food, clean our hotels, grow our food and care for our children are among the lowest paid in Boulder County.

Most do not receive benefits and many are not guaranteed full time work. ¹ 42% of Boulder County's homeless are families with children. ²

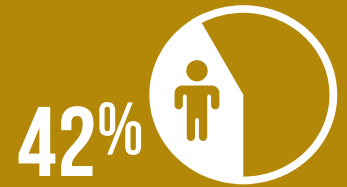

One in five Boulder County renter households spends more than half of their income on housing. ³ Income inequality is higher in Boulder than in the nation overall. ⁴

OUR CLIENTS

"EFAA is critical in meeting our household's needs. When our car broke down, EFAA was there to help; when we moved into a new apartment, EFAA was there to help with moving expenses. Above all, the food EFAA provides us with helps meet our food requirements. For a family of four, and federal food stamps being constantly lowered lately, EFAA is there to help us have nutritious food to eat. We are indebted and grateful. One day when my wife and I get our degrees, we will be sure to pay it forward."

"I am an older hospice nurse that had fallen on a hard times and received the most courteous, caring help from staff."

"Living at ECHO House changed my life for the better. It provided the springboard for me to jump into a much more stable environment for me and my son. I could not have done it without the help of Liz at ECHO House and EFAA's Housing Program."
